

SCRIPT: Train Station Travel Centre

Starts in the travel centre at 11:50am

JEFF:

Can I help?

Tom heads to the counter desk

JEFF:

What can I do for you?

TOM:

Can I have an anytime day return to London please?

JEFF:

Are you sure you want to go to London with that ticket type, you can probably get a cheaper ticket to go to London

TOM:

But I just need to get a train to London, it comes in at 12:00pm

JEFF:

You can get cheaper tickets, why don't you go first class?

Sketch cuts to a public apology

Voiceover:

Wiggle TV would like to apologise for the poor quality of the writing for this sketch. It is our stupidity to remove all the references of the trains and buses from this sketch

The sketch restarts

TOM:

But they're way more expensive

JEFF:

But with a first class ticket you get the benefits like free WiFi, customer host when ordering food and drink, free coffee and cakes and leather seating in the first class coaches

TOM:

Look, I need only an anytime day ticket, I heard it was the cheapest on the TrainLine

JEFF:

Don't believe in that rubbish website, they only do tickets for certain trains and they do not do open tickets. Anyway, it's better value to go first class, you can even go to the first class lounge (That's if it is open)

TOM:

It's getting to 11:57 and the train should be arriving now

JEFF:

Don't worry about that, the train could be running late

TOM:

But the indicator says it is running on time, so can I get the ticket I want please!

JEFF:

Don't believe in these indicators, it is only pure fantasy and the times are only estimated times. Anyway, it tells me the train you want is expected at 12:08pm so I still have time to offer you the best value for money first class ticket

TOM:

But I don't want it!!!

JEFF:

Yes, you do want it!!!

TOM:

No I don't!

JEFF:

Yes you do, there is still time, so you still want a train ticket

TOM:

Yes, I just want a train ticket to London

JEFF:

So you want an anytime day return first class ticket to London?

TOM:

You've gone back to the first class ticket again!
Great, the train I want has just left the station,
when is the next London train due now?

JEFF:

The next London train is at 12:45, are you still interested in the first class ticket?

TOM:

No, I just need an anytime day ticket to London

JEFF:

Good, that will be £194.67

TOM:

That looks expensive!

JEFF:

I can still do you first class, err wait, this price is for the first class ticket

TOM:

Oh no, not that first class ticket again

Tom exits the counter
